## Dream catcher

A dream catcher is a Native American object that is believed to have the power to catch bad dreams and let only good ones through. Many people believe that dream catchers are spiritual objects with powers that can protect you from evil. There are many different ways to make a dream catcher, but all of them require some basic materials and steps.

The first step is to find a circular object to use as the base of your dream catcher. This can be anything from a paper plate to an embroidery hoop. Once you have your circle, cut a piece of fabric or leather that is large enough to wrap around the circumference of your circle twice. Cut a small hole in the center of your fabric, and then thread your fabric through the hole so that it forms a loop.
