## Materials

- Fabric scraps in a variety of colors and patterns
- Batting
- Backing fabric

- Thread
- Sewing machine
- Rotary cutter and cutting mat
- Quilting ruler
- Iron and ironing board

## **Instructions**

1. Cut your fabric scraps into squares. The squares can be any size you want, but we recommend using squares that are at least 5 inches wide. You will need 16 squares for each quilt block.
2. Arrange the squares in a pleasing pattern. You can use any pattern you want, but we recommend using a simple pattern like the checkerboard pattern or the log cabin pattern. Once you have arranged the squares, sew them together into a quilt block.
3. Repeat step 2 until you have made all of the quilt blocks. You will need 16 quilt blocks for a small quilt, or more for a larger quilt.
4. Sew the quilt blocks together into rows. Once you have sewn all of the quilt blocks together, you will have a quilt top.
5. Layer the quilt top with the batting and the backing fabric. Quilt the layers together using a quilting ruler and your sewing machine. Once you have quilted the layers together, your quilt is finished!

## **Tips**

- Use a variety of different fabrics to create a unique and beautiful quilt. You can use solids, prints, or even batiks.

- Experiment with different quilt block patterns. There are endless possibilities when it comes to quilt block patterns, so don't be afraid to try something new.
- Take your time and enjoy the process of making your quilt. Quilting is a relaxing and rewarding hobby, so don't rush through the process.
